

Creating Connections. Opening Minds. Engineering Futures

Educator TRAINING

*Patty O'Brien Novak
helps Elementary Educators
teach engineering in the
classroom.*

*Patty is an engineer & author
of the children's book,
"Engineering the ABC's." A
much sought after presenter,
Patty has over 100 hours of
classroom experience
working with over 1800
children.*

From Bookmarks to
Pop-Up Cards to Graham
Cracker Houses, learn
how to teach fun & easy
engineering projects!

K-12 engineering standards are coming.

Learning about the engineering process in a K-5
classroom can be exciting & interactive.

Elementary engineering is:

***teacher friendly**

***budget friendly**

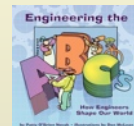

***time friendly**

Young children **can learn** engineering, and I will
help you teach them!

Contact Patty today to schedule your
professional development training session.
